

PACK FOR A PURPOSE AMAZON SAVIOUR 2018

The next challenge

The Guaraporé (pron: Guah-rah-pow-reh) riverbed in the Amazon region is surrounded by communities of Riverain people, Hispanics, Indigenous tribes, and “Quilombolas” (communities initially founded by fugitive slaves) that struggle with limited access to medical assistance, malnutrition, contamination of natural resources, and a general lack of basics to health and well-being.

THE KALEO INSTITUTE EXISTS TO EMPOWER VOLUNTEERS AND FACILITATE THE ACCESS TO SERVE THESE COMMUNITIES IN THE AMAZON REGION.

The Amazon Saviour 2018 project is organised by Kaleo Institute in partnership with SEEDS Newcastle, with the support and sponsorship of ADRA (Adventist Development and Relief Agency) and the Government of the State of Rondonia. We will count with a group of 30 volunteers, expecting at least 4 dentists and 3 doctors with experience in pediatrics and ophthalmology to assist in specific needs. There will be visits to the communities to assess their needs. In addition to that, we will offer educational sessions in health and lifestyle.

WITHIN 11 DAYS, WE EXPECT TO SERVE UP TO 2,000 FAMILIES, OFFERING FREE MEDICAL, DENTISTRY AND EDUCATIONAL SERVICES AND ASSISTANCE.

Here are some of the options of activities to get involved:

- MEDICAL ASSISTANCE
- HEALTH EXPO - PROMOTING 8 NATURAL FUNDAMENTALS TO PREVENT DISEASE
- HEALTH ASSESSMENTS
- DENTAL ASSISTANCE
- EDUCATIONAL SESSIONS ON FAMILY PLANNING, HEALTH AND HYGIENE
- COUNSELING
- CHILDREN'S ACTIVITIES

AMAZON SAVIOUR 2018

The local population is marked by precarious living conditions, with low-to-none sanitation infrastructure, where the fragility caused by abandonment is evident. These factors contribute to high rates of infant mortality and overall poor health conditions in the area.

Currently, we plan to execute this project from **May 15 until May 26**, starting in the region of Pimenteiras, going through Forte Principe until Guajará Mirim.

About KALEO

The Kaleo Institute is a non-profit, non-governmental organisation that engages in human development initiatives in Brasil and around the globe for the past 5 years. More specifically, it specialises in the relief of suffering of people groups with low expectations regarding the future.

By organising projects in the areas of health and education, KALEO promotes volunteer programs in socially vulnerable communities, allowing for the direct involvement of participants to serve their fellow men and women at these places.

The Institute believes that everyone has a KALEO (from Greek, *calling*) which is irrecusable and untransferable in the building of a better world.
